

## NON SLIP | Multi-Function | Multi-Surface PROTECTOR!

Multi-function surface protector and coverings for new and existing surfaces, provides safe and effective protection, enables you to carry on working without risk or hazard. Non-slip - easy installation, removal, reuse, and disposal.

### Functions:

- Non-slip for safer and clean job sites, on floors, stairs, walls, furniture, and sanitary installations no fixation with tape
- Impermeable; protects surfaces from all kinds of liquid (water, paint, solvents), impact dust, dents & dings
- Extremely robust and tear-resistant does not bunch when wiping
- Easy installation, removal, reuse on other jobs sites and disposal
- It can be wiped and vacuumed
- No residues on surface upon removal

### Benefits:

- Protects newly & existing surfaces (floors, walls, countertops, furniture & sanitary.. ect), carpets, stairs, wood, tiles against mechanical damage and stains from spilled liquids
- Helps to prevent accidents (back side with active anti-slip protection)
- Reusable - can be moved used several times - cost savings
- Environmentally friendly, free of harmful substances, thermally disposable

### Technical Data:

- Top Layer Material: PE Film, liquid barrier
- Cushion Layer Material: PET Fibers, Needle punched
- Backing Layer Material: Residue-free anti-slip adhesive coating
- Weight: 160 g/m<sup>2</sup>
- Thickness: approx: 1.5-2.0mm
- Other Tech data available upon request

Protect & Anti-slip

Waterproof

Reusable

Impact Resistant

No Residue

Breathable

# 36" x 100' Roll
