Schluter®-SCHIENE

Schluter®-SCHIENE features an 87° angle to transfer point loads and protect tile edges in tile coverings. Typical applications include edge protection where tile is bordered by carpet, at expansion joints, or as a decorative edging for stairs. SCHIENE in aluminum and brass, in sizes 1/4" *(6 mm)* and higher, features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile.

Note: Also available in stainless steel 316L (1.4404 = V4A). Contact Customer Service for pricing and availability.

*Color Codes

MBW Matte white · MGS Matte black

* To complete the item number, add the color code (e.g., A 60 MGS).

Note: The anchoring leg of **Schluter®-SCHIENE** is available with a special radius perforation so that the profile can be used to form curves.

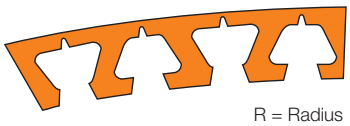

R = Radius

- Price surcharge: $0.70 per foot
- Available in all materials
- Polished and color-coated aluminum finishes require a relatively large bending radius
- Item No.: R / Profile No. (e.g., R/A 80 AT)
- For delivery time, please call Customer Service

SCHIENE in textured color-coated aluminum finishes is suitable for floor installations within residential applications only.

Schluter®-SCHIENE-RADIUS

Schluter®-SCHIENE-RADIUS is an extruded profile, with special perforations, for finishing and protecting the edges of curved tile coverings. SCHIENE-RADIUS provides edge protection while enhancing the aesthetic appearance of a curved design, including curved tile-to-tile transitions and curved outside wall corners, as well as curved designs in other surface coverings. Other sizes are available upon request.
