Canadiana Allura Flex 0.55 is a versatile LVT flooring solution ideal for offices, residential spaces, and commercial ventures. This innovative design allows for easy installation, minimizing downtime.

These floors can be reused or recycled at the end of their lifespan, reflecting a commitment to the circular economy. Allura Flex floors consist of only functional layers, providing unmatched dimensional stability, strength, performance, and quality.

PLEASE NOTE: The bevel edges on the planks have what appears to be a saw cut visual, which is part of the design.
